GOALS FOR THE 2014 MANNA BOARD

Jim Peterson, Board President

1. Board meetings and Board members are focused on matters of policy and strategy (and education) with respect to good governance. (e.g., see dashboard reports and implications.)
2. Board members recognize that Board member recruiting is a full-time/ongoing responsibility and that passion for the mission of MANNA is a primary requirement for prospective members. (See Membership and Governance Committee (Janie Wilson, Chair) with your recommendations – please don't go direct.)
3. Board members will fully participate in annual giving and the capital campaign and recognize that fund raising/development is a full-time/ongoing responsibility. Members share an understanding that development work by the Board includes reaching out to connections and contacts and does NOT have to mean asking someone for money.
4. Board members recognize advocacy for MANNA as a full-time/ongoing responsibility based upon being informed and engaged on public policy issues that affect MANNA's target population.
5. Board members are apolitical in their MANNA-related communications and interaction, including Board and committee meetings and discussions. (We undermine the MANNA mission if/as we display a partisan bias.)
